Hi guys!

It's the second month and also, the shortest of the year. However, it is known the world over for Valentine's Day, which is celebrated on February 14. On this day, couples express their love by giving out cards, chocolates and other presents to each other. But Valentine's day does not necessarily mean a romantic exchange just between boys and girls, you can also treat Valentine's Day as an opportunity to show the loved ones in your life—your family and friends—that you care.

Trivia: The Greeting Card Association of America estimates that approximately one billion valentines are sent each year worldwide, making Valentine's Day the second largest card-sending holiday of the year behind Christmas.

Happy Valentine's Day!

Love,

Cheryl

P.S. Great news! J.M. Barrie's classic play, *Peter Pan*, is currently being staged in Manila—the first stop in its 2007 Asian tour! Apart from having a fantastic international cast of adults and child actors, live musicians and full choir on stage, *Peter Pan* will also benefit local and international charities like Children's Hour. It runs from January 12 to February 4 at the Cultural Center of the Philippines (CCP). Tickets are available at <http://www.ticketworld.com.ph>.

Look, I even got to meet Captain Hook (Scot Sauer) and Peter Pan (Michael Lin)!

Drop me a line!

V FOR VALENTINE

Get to know how the day of love came to be!

Every year, Valentine's Day falls on February 14. It is the traditional day on which couples express their love for each other by exchanging cards, chocolates, flowers and other similar gifts. The day became associated with romantic love in the High Middle Ages, when the tradition of courtly love flourished because of the actions of the knights in shining armor. Today, Valentine's Day is a universal holiday where people from all cultures express their love not only for their boyfriends and girlfriends, but for their family and friends as well.

VALENTINE'S DAY TRIVIA

- Cupid is a character that is often around during Valentine's Day. He is actually a figure from Roman Mythology, believed to use magical arrows that make two people fall in love.
- It is estimated that approximately one billion valentines are sent each year worldwide. That makes Valentine's Day the second largest card-sending holiday of the year behind Christmas.
- The holiday is also known as Saint Valentine's Day because the day is named after two men, both Christian martyrs named Valentine. Legend has it that the first Valentine was a priest during third century Rome. During that time, Emperor Claudius II declared that single men made better soldiers than married men and he did not allow marriage for young men in hopes of building a stronger military. Supposedly, Valentine decided this decree wasn't fair and chose to marry young couples secretly. When Emperor Claudius II found out about this, Valentine was killed.
- The legend of the other Valentine tells us that he was an imprisoned man who fell in love with his jailor's daughter. Before he was put to death he sent the first 'valentine' himself when he wrote her a letter and signed it 'Your Valentine." These are the words still used on Valentine's Day cards today.

Red Hot

The color red epitomizes the season of February. Don these cute accessories and be the hottest Valentine's Day style queen!

Tiger Lily Hair Clip (P450) from Debenhams
Red Belt With Flower Buckle (P595) from Details Trading
Red Faux Croc Leather Strap Watch (P979.75) from Cherie Paris

Beauty Food

The freshest produce around the house can actually make you look and feel much better!

CARROTS maintain the outer layer of your skin to prevent premature aging.

GARLIC combats wrinkles and restores tissues.

CRANBERRIES keep the urinary tract lining healthy.

CHEESE blocks bacteria in your mouth and prevents cavities.

TOMATOES are good for the skin; they are rich in Vitamin A, C and Potassium.

APPLE CIDER VINEGAR keeps skin supple. Its heavy concentration of enzymes helps peel off dead skin cells and breaks down fat to digest food properly.

CITRUS FRUITS hold the skin cells together by forming collagen.

GREEN LEAFY VEGETABLES are sources for Vitamin B Complex which is vital for clear, luminous skin and delaying the graying of hair. Lack of it can produce dandruff, dry skin, scaly lips and poor hair growth among others.

SWEET POTATOES have Vitamin A which prevents you from getting wrinkles; it also gives you clearer and smoother skin.

WHEAT GERM gets rid of pimples quickly and efficiently. It's best to include this when eating cereal, yogurt or cottage cheese.

V-Day Tunes

Here are some songs that will definitely set the mood for the love month of February!

"Because You Live" by Jesse McCartney

With his boyish appeal and blond good looks, who can resist Jesse McCartney when he's crooning on-stage (or on your CD player, for that matter)? "Because You Live" is a mellow tune that's perfect for that romantic quiet moment with your special someone. It's also a great background for daydreaming on your much-needed alone-time.

"Start of Something New" by Zac Efron & Vanessa Anne Hudgens

From the popular TV movie, *High School Musical*'s soundtrack is the opening song where you first see the connection between Troy and Gabriella. The lyrics are simple, telling of new experiences, new adventures, and new loves—which is perfect for this new year. With an easy melody to follow, this is one song that will play itself it your head long after you've turned off the player!

"Waiting (Save Your Life)" by Omnisoul

For all you rockers out there, this single from the *Fantastic Four* soundtrack is one of the best from Omnisoul. It combines rock with a bit of an alternative sound, as well as the deep vocals that make most of us absolutely melt the moment we hear it.

"I Can't Take My Eyes Off of You" by The High School Musical Cast

Also from *High School Musical*, this song was not in the movie itself but is included in its soundtrack. It has an upbeat mix that features vocals from most of the cast of the movie. Give it a spin and find yourself singing and humming along to its addictive tune.

"You Found Me" by Kelly Clarkson

Breakaway opened with mostly heartbreak songs and sad melodies. "You Found Me" is a fresh song talking about love coming around when you least expect it. Because it's Kelly Clarkson, there's none of that sentimental scores. Think, energy and an edgy rock sound reminisce of the hit, "Since You've Been Gone."

It's Spelled L-O-V-E

In the digital age, technology has made it so easy to learn about feelings and express emotions. But still, love is a mystery that is waiting to be solved. This season, make your Valentine's much more enjoyable with these websites, games and gadgets that will surely make your heart skip a beat.

Kids Domain

<http://www.kidsdomain.com/holiday/val>

This website has all the goodies on Valentine's Day. You can learn about the history of the holiday, learn how to cook Valentine goodies, play Valentine games and puzzles and even paint a picture for your Valentine.

M.A.S.H.

<http://www.playmash.com>

"You will marry...live in a...drive a..." M.A.S.H. stands for Mansion, Apartment, Shack, House. It is the fortune telling game that every kids plays. Find out who your future husband may be this Valentines. Play the online MASH game.

Ipod Nano (PRODUCT) Red Special Edition

The Ipod Nano comes in the color of love in this special edition release. Save your favorite tunes in this Ipod and hear your Valentine's music come to life with love. Plus, since it's part of the (PRODUCT) Red campaign, every purchase of it will give $10 of its purchase price to the Global Fund to fight AIDS in Africa.

Available at the Apple Store, Power Plant Mall

Red Swatch Watch

Attract some love this season with this flaming red watch. This "Strawberry Jam" watch will surely spice up a loved one's Valentine's Day.

Available at the Swatch Store, Glorietta 4

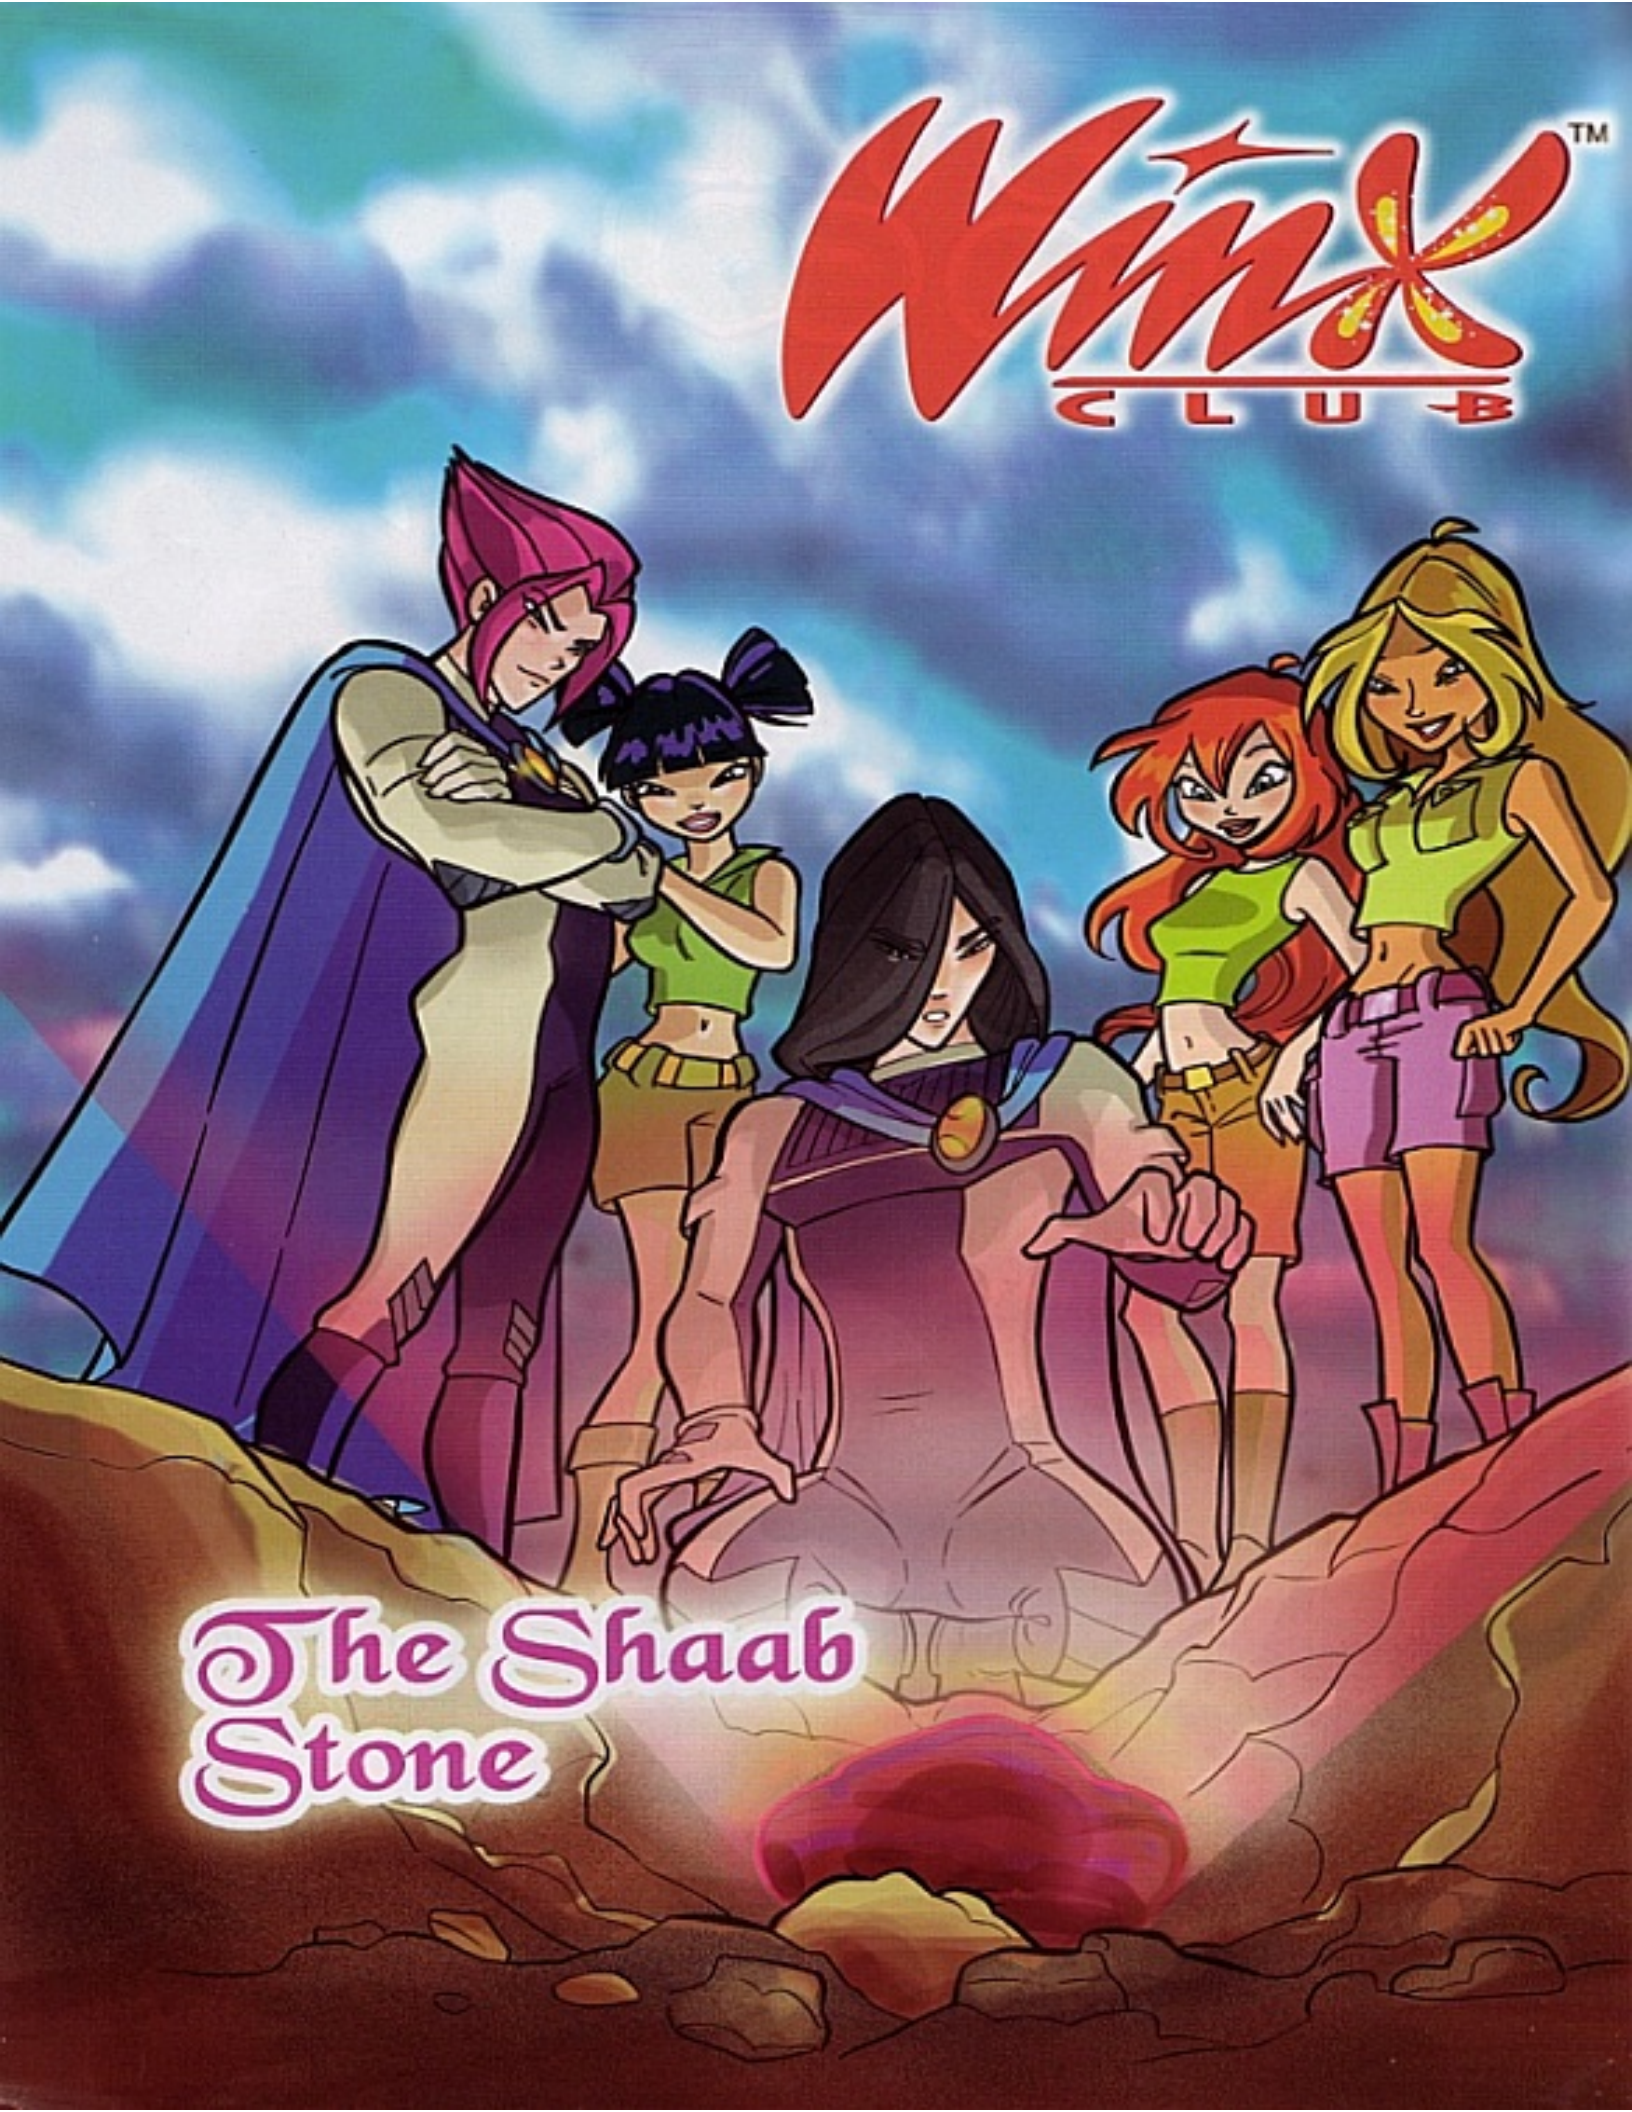
H2O IS THE WAY TO GO!

As fairy of the liquids, I'm telling you that as tempting as sodas and softdrinks are, water is still the healthiest option!

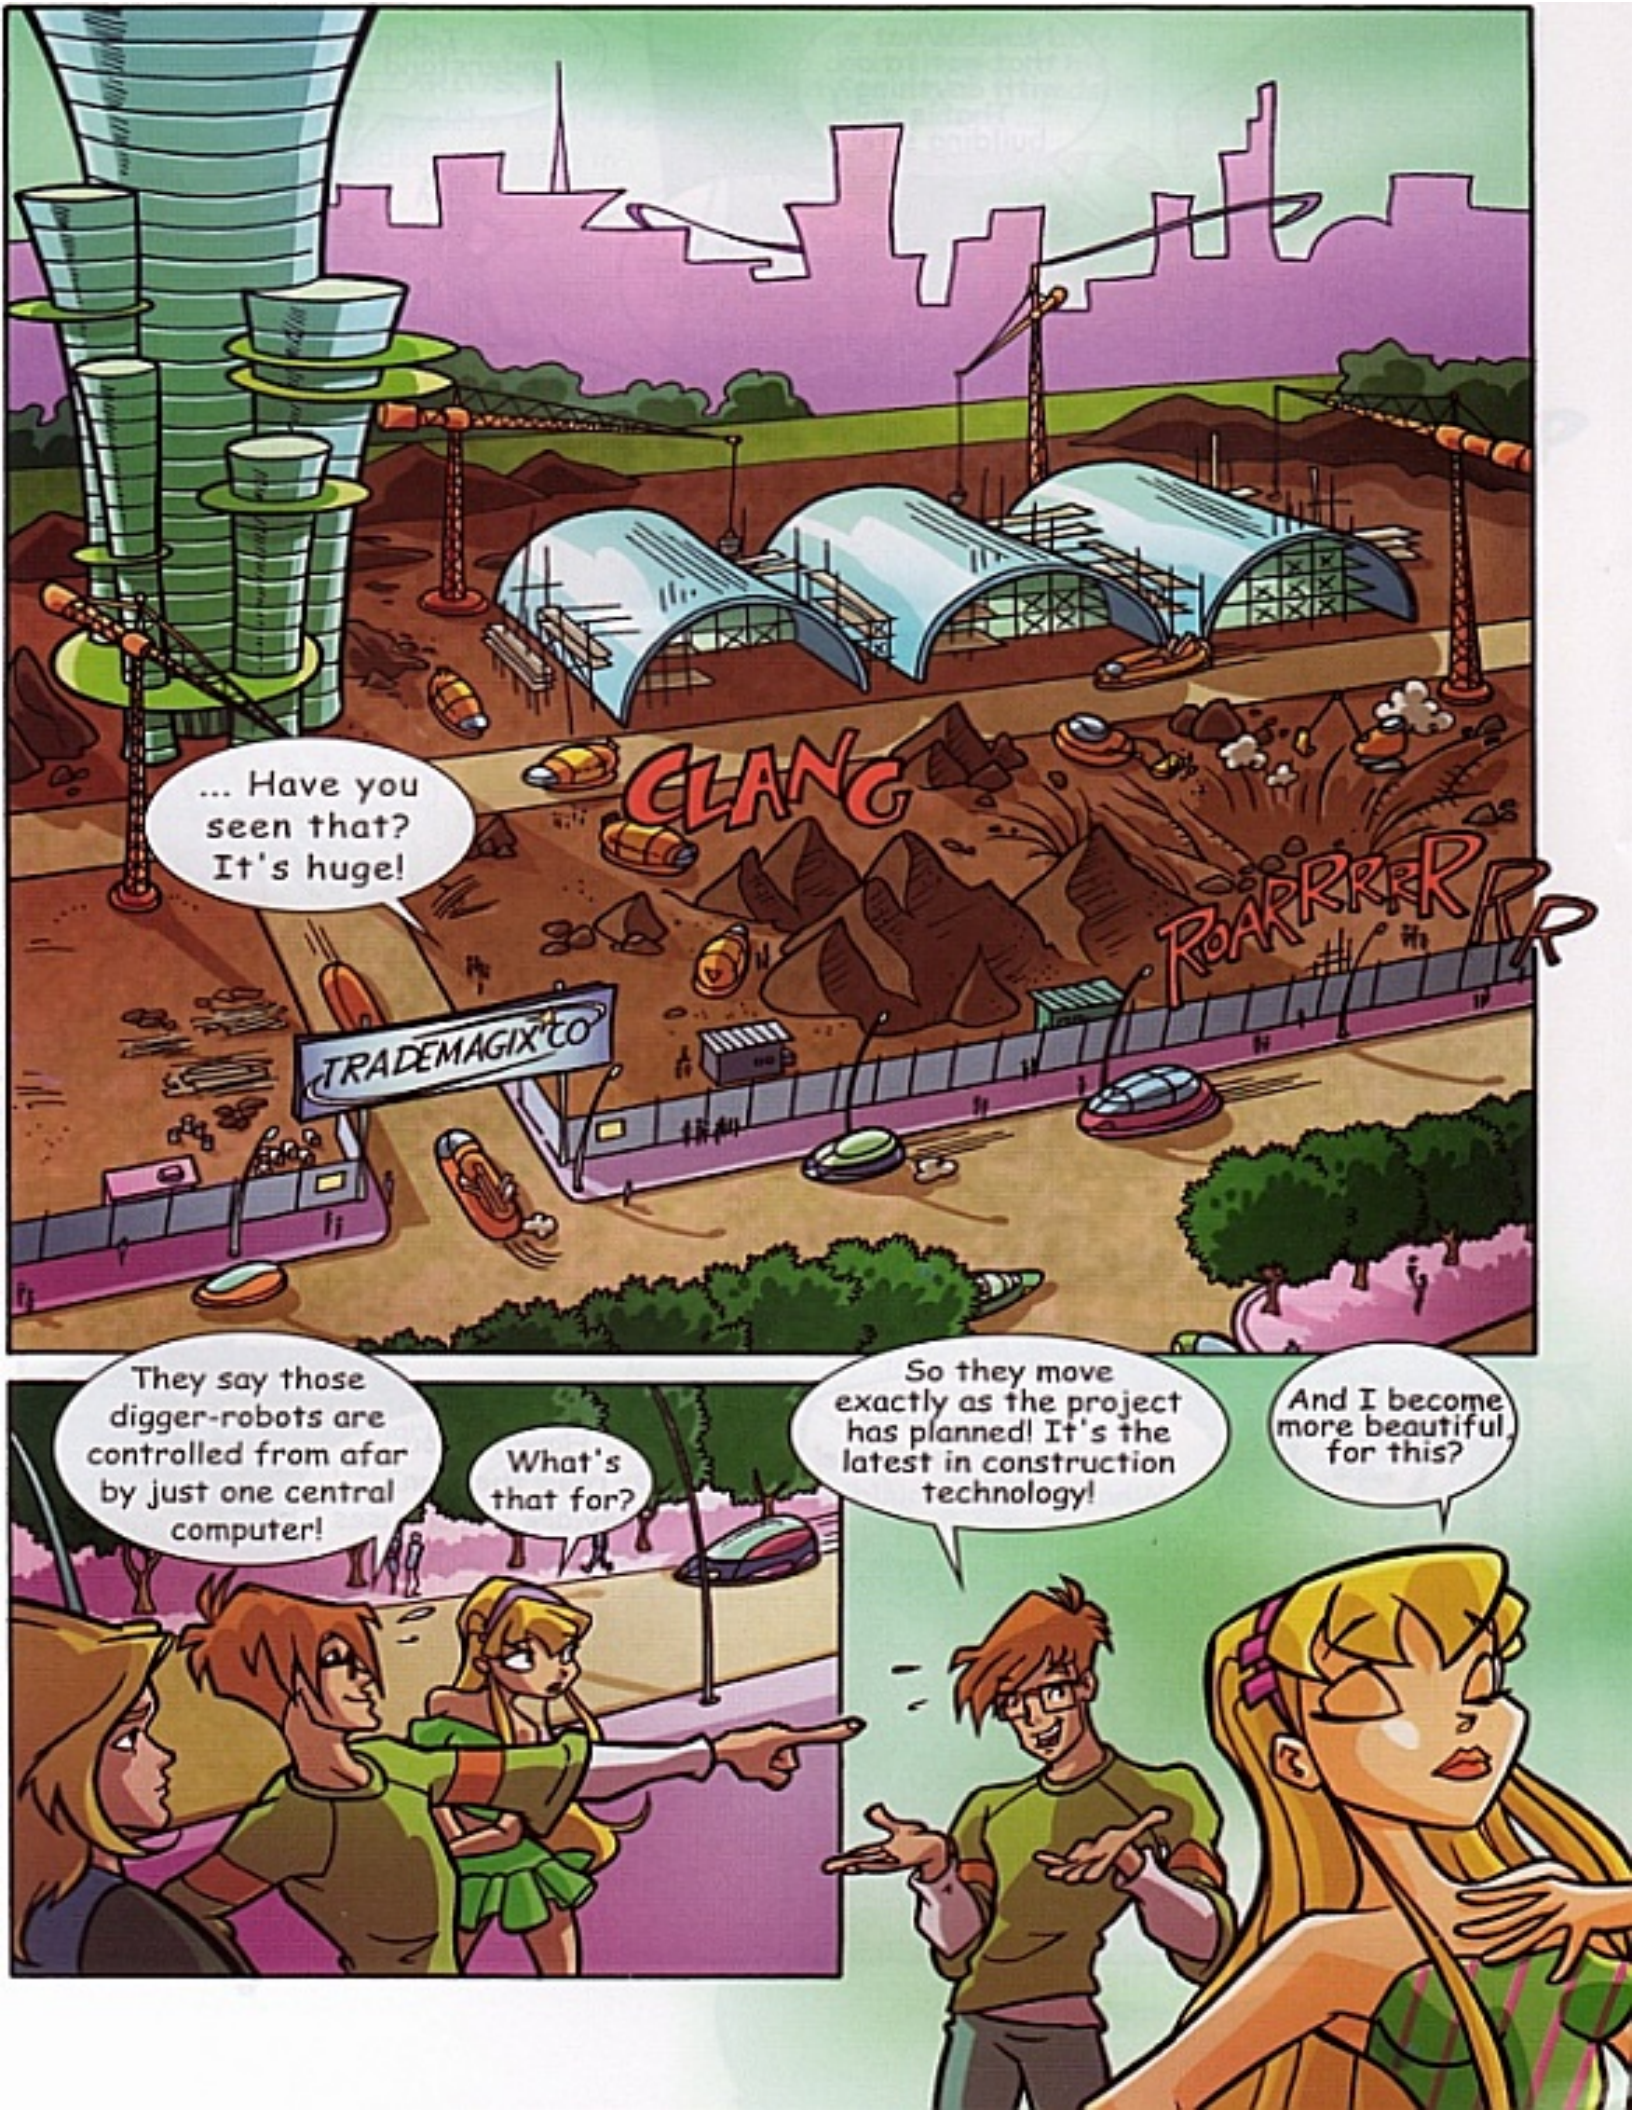
We've seen television commercials that show people drinking their favorite sodas and giving that "Aaaaahhh!" sound to show that they have successfully quenched their thirst. The truth is, sodas or soft drinks do very little for your thirst—and they can even be unhealthy.

Soft drinks or other sweetened drinks make you think that you have quenched your thirst because they contain a considerable amount of syrup. Imagine this, if you drink a can of soft drink everyday for a year, you would gain roughly 15 pounds of weight in a year! Most soft drinks also contain caffeine and sodium; these are diuretics that can cause dehydration, which is the opposite of what you are trying to do when you are thirsty.

In this case, what you should reach for is just a plain glass of water. Water contains no calories, no sugar and no caffeine or sodium – so you can be sure that you are going to re-hydrate yourself, and not the opposite! More than this, drinking water helps your blood circulation and digestion. No wonder doctors advise us to drink six to eight glasses of water a day! So whenever you feel really thirsty—whether from sweating on a really hot day, or from playing a game of tag with your friends, unhand that can of soda and reach for a bottle of water instead!

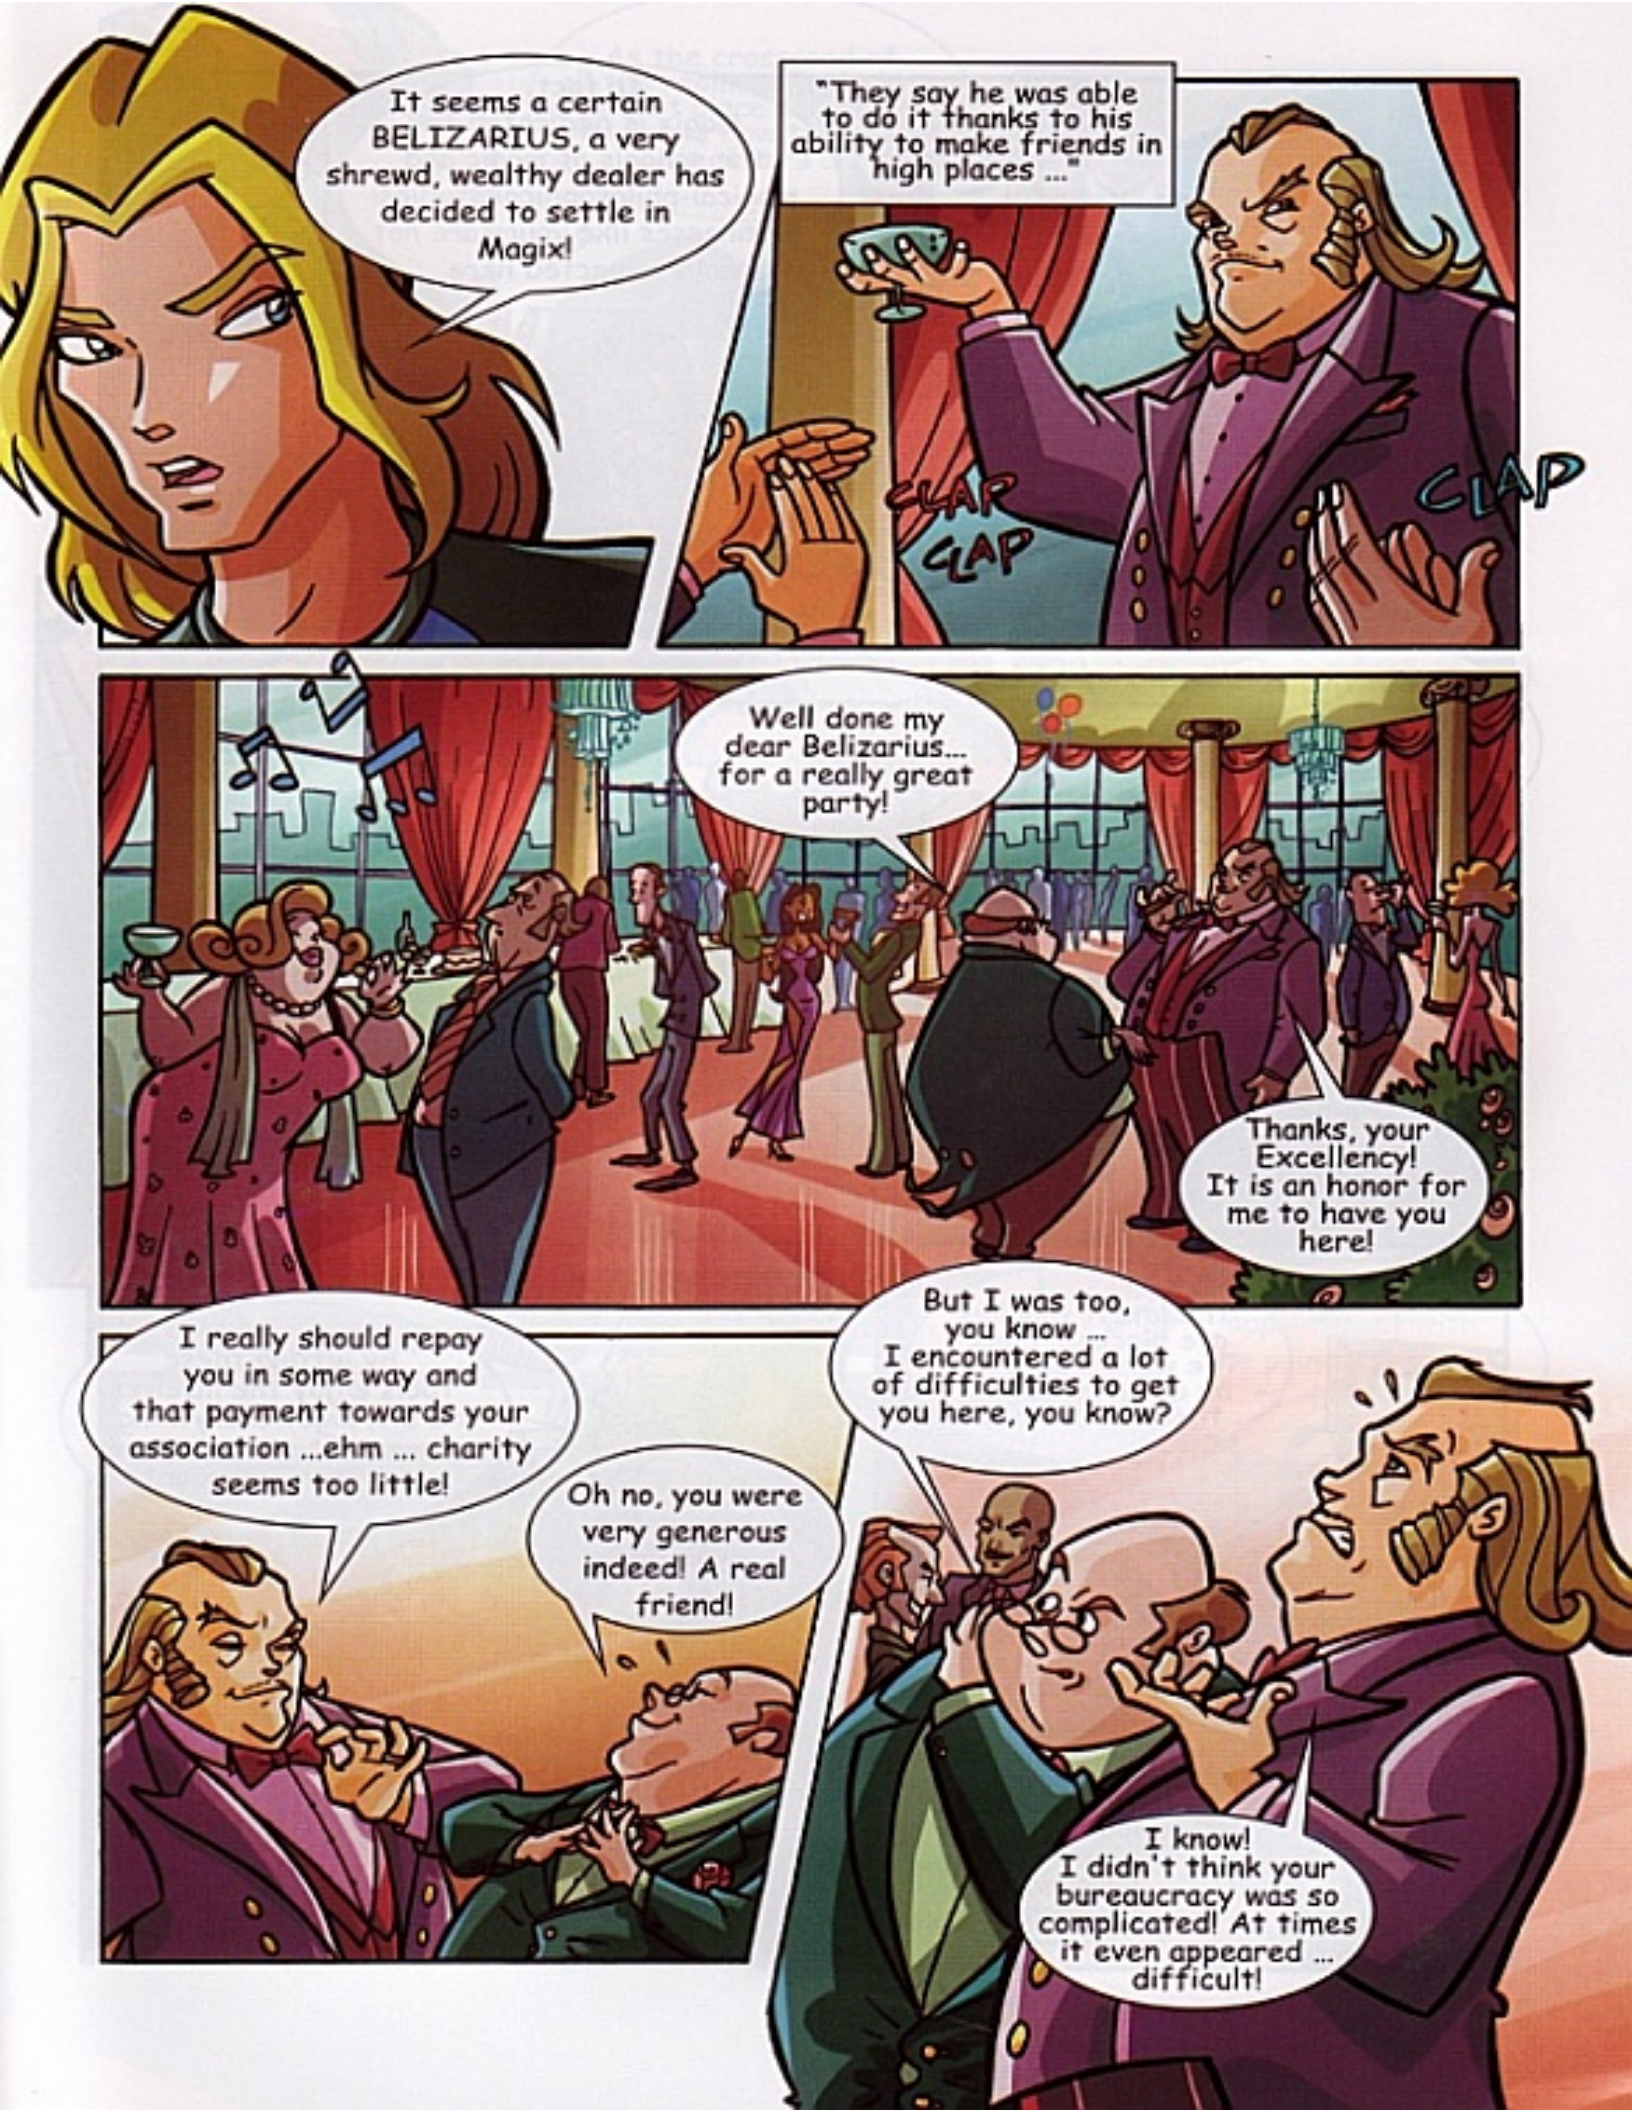


Winx
CLUB
The Shaab Stone



... Have you seen that? It's huge!
CLANG
ROARRRRRRR
TRADEMAGIX CO
They say those digger-robots are controlled from afar by just one central computer!
What's that for?
So they move exactly as the project has planned! It's the latest in construction technology!
And I become more beautiful for this?

N..no! What's that got to do with anything? That's a building site!
Right then, if it doesn't make me more beautiful I'm not interested!
But ... I don't understand ...
Ha! Ha! Stella is making fun of you, Timmy! Don't pay any attention!
You.. you are better than any crane, Tecna! Really!
You're the one that gets a little too excited when you see a crane!
Building sites are really interesting for you, eh? And me, so?
I do hope so!
Those buildings are really impressive! What are they building?
Haven't you read the sign? They are warehouses for a new company!



It seems a certain BELIZARIUS, a very shrewd, wealthy dealer has decided to settle in Magix!
"They say he was able to do it thanks to his ability to make friends in high places ..."
CLAP
CLAP
CLAP
Well done my dear Belizarius... for a really great party!
Thanks, your Excellency! It is an honor for me to have you here!
I really should repay you in some way and that payment towards your association ...ehm ... charity seems too little!
Oh no, you were very generous indeed! A real friend!
But I was too, you know ... I encountered a lot of difficulties to get you here, you know?
I know! I didn't think your bureaucracy was so complicated! At times it even appeared ... difficult!

In fact, Magix is dedicated to the schools of magic and magical-philosophical studies! Businesses like yours are not really expected here...
... But thanks to me, it all went well and now you can carry on your business in peace!
I will be eternally grateful, your Excellency!
The latest supplies are blocked, boss! The warehouses will be up an running in the time planned!
Good, Servidio! The party is also proceeding excellently!
By letting these fools enjoy the mselves a bit, I got everything I want! It even cost me less than I thought!

As the crossroad of all the realms, Magix is an excellent place for a dealer who knows how to conduct his affairs ...
... And you are the best of all!
That's right! Eh? Eh? Working in Magix will excessively increase my profits! But it is useful to me for much more besides!
Are you referring to the schools of magic?
Yeah! That Cloud Tower, for example ...
Make an appointment with the principal! I want to visit there tomorrow!
In fact, the next day ...
... Belizarius, you say? Please, take a seat!

Your secretary was very insistent and I am very busy! What is it you want, exactly?
I just wanted to meet you, madame! Cloud Tower is very famous and I wanted to pay homage to you!
It's a pity you didn't come to the party ...
I hate parties! And since, there is too much to do here!
Ah, yes ... the school! In fact, that's why I am here! You study the art of magic, right?
Exactly!
Well! As you know I am a businessman and ...
!?!
YOU DON'T SMOKE IN MY OFFICE!
AAAH!
BZZAAAZZZ
SIZZLE

Actually, to be precise, you cannot smoke anywhere in Cloud Tower! DO YOU UNDERSTAND?
Of... of course! Of course!
Now would be a good time to tell me what you want!
GRRR ... ok, dear principal! I wanted to be kind but I believe that's truly impossible with a witch!
No, I am already quite practical, thanks... however, I admit I don't know how to do everything! Understanding what my competitors are up to, for example ...
That's right! Would you like to enroll at our school?
Witches ... in fact, this is really what I am interested in, in you! You do black magic, right? Wickedness... that sort of thing!
Or convince them to do what I want ... or change some contract in a flash, perhaps ...
that would be very convenient for my business!
If you could do that for me, with your spells, I would be very grateful!
Really?

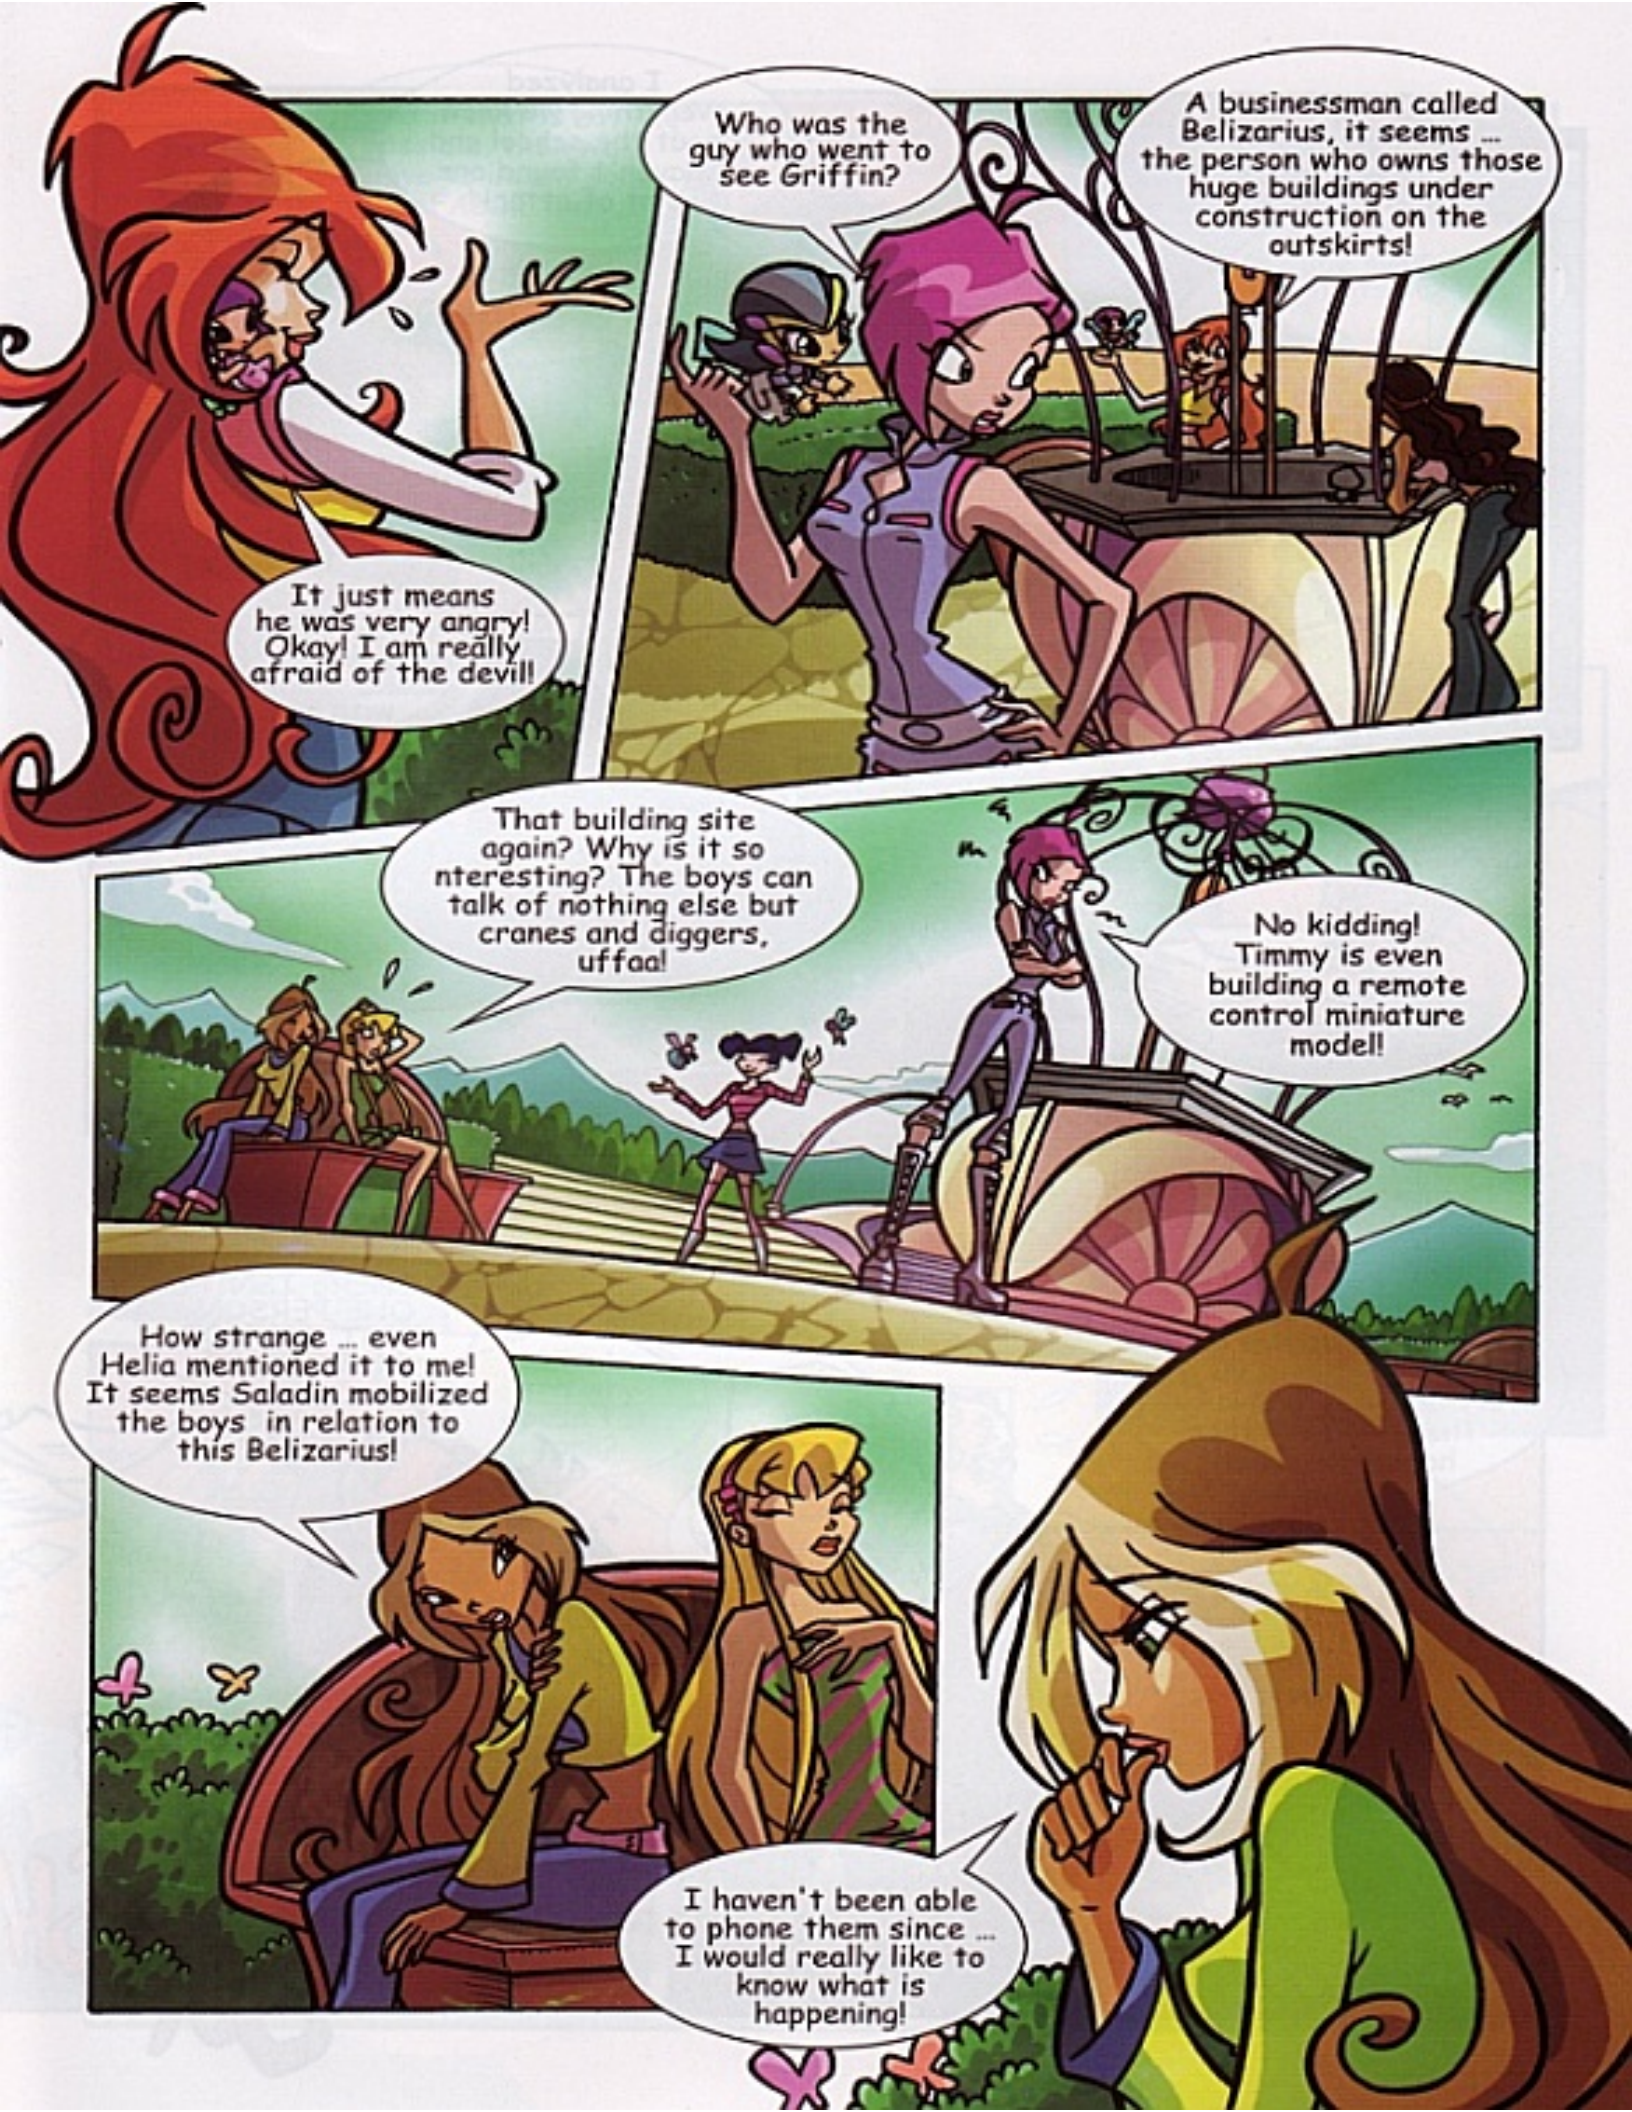
That's right! I could give you ... ten percent, let's say! And if you want a par payment I ...
ABSOLUTELY NOT!
It's too little! Let's do fifteen then ...
Mr. Belizarius, you haven't understood a single word I've said!
Even if we study black magic, deceit and wicked deeds, we are AGAINST EVIL, in the exact same way as the fairies ...
... Only we fight against it using your same methods, while they use good magic!
In any case, we would never promote anyone's business ... let alone accept a percentage for it!
Are you refusing to help me?

Have you finally understood! My answer is no!
We study dangerous enemies every day in class! You may leave!
Be careful what you say! I am a dangerous enemy to have!
Unfh!
FFZZzzz
SLAM

Dear Griffin, what a pleasure ... what news have you for me?
A very unpleasant person called in! I think we need to talk ...
How did it go boss?
Terribly! Let's get a move on!
A real witch! I have never been treated like that!
I told you, boss! She didn't even want to meet you!
I am an important man! ... NOBODY SAYS NO TO ME!
SBUFF
Cough! Cough!

Magix is too important to leave to these useless teachers! That shrew didn't even let me smoke! ...
I ... I think she was right, boss! You know it's bad for you. GASP!
DON'T YOU START TOO, YOU HEAR ME? ... AND DON'T EVEN THINK ABOUT VOMITING ... NOOO!
GGOAHHGggh!...
A few days later ...
... Have you heard? It appears the principals of the three schools have held an extraordinary meeting!

So? They often have meetings!
Yes, but this was special ... a witch told me Griffin was out of her mind!
Are you hanging out with witches now? Do you want a change of scene?
No way! I heard it at the White Horse while serving the tables!
Well, it appears a really rich guy went to Cloud Tower and argued with Griffin! He was like a devil for days ...
... And then there was this meeting of the principals! In my opinion something serious has happened!
Was he really a devil afterwards? ... Did everyone see him?
No Lockette! It means he was in a bad mood!



Who was the guy who went to see Griffin?
A businessman called Belizarius, it seems ... the person who owns those huge buildings under construction on the outskirts!
It just means he was very angry! Okay! I am really afraid of the devil!
That building site again? Why is it so nteresting? The boys can talk of nothing else but cranes and diggers, uffaa!
No kidding! Timmy is even building a remote control miniature model!
How strange ... even Helia mentioned it to me! It seems Saladin mobilized the boys in relation to this Belizarius!
I haven't been able to phone them since ... I would really like to know what is happening!

... So, have you found something?
Not yet, Sir!
I analyzed everything we know about the school and I haven't found one point of attack!
Uhm!
Actually, they have fought against very powerful opponents some time ago and they resolved everything brilliantly!
No problems with the law? ... No revenue issues ... non-compliance with regulations?
Absolutely nothing, boss! The principles of the schools are magicians and are above all suspicion! They are more than honest, in short!
DON'T SAY THAT WORD!
THERE ISN'T ONE PERSON THAT CANNOT BE BOUGHT!
SCRASH

And if that is not possible, then we will have to invent something FALSE that ...
TOC TOC
I am busy! What do you want?
I have discovered something, boss! Perhaps it's important!
I noticed while studying geological research on the mountains to the north ... an area called the Enclosed Territory!
So?
It appears that magic doesn't work in this zone, for some mysterious reason!
What?
Uhm! And why doesn't it work?
I asked myself the same question! That's why I looked into it even more ...
... I discovered something that nobody else in Magix knows!

Nice discovery! Have you decided to waste my time?
Don't you find it strange that nobody knows it? I would rather say that nobody ... WANTS this to come out!
I put my informers into action and I discovered something very interesting!
Which is?
It appears that a long time ago a mysterious meteorite fell in Magix, right in the center of what is today the Enclosed Territory ....
"On impact, the meteorite disintegrated and dispersed around the area in the form of very fine dust! ..."
And it is this dust that eliminates the effects of magic! The dust from this meteorite which was called the SHAAB STONE!
A stone that eliminates magic! A good way to blackmail the Cloud Tower witches and force them to work for me!
Listen, listen ...
But if it disintegrated it would be impossible to recover now!

But some fragments could still be there and we could find them, right Lothar?
I think so too, Sir!
Find the Shaab Stone and I will make you a rich man, Lothar! You and all your men!
Yes Sir!
A few days later...
BZ-41

... What you are saying is very serious, Helia! Are you sure it wasn't a normal cargo ship?
Yes, sir!

The number plates were false ... and the radar was a military type one, even if it was well disguised!
That was a secret, military mission ... I am sure of it!
This fits in with the other information! Do you think they are going in search of the stone?
I am afraid so!
Thanks to my witchcraft I managed to intercept Belizarius' discussions, even if the building is well protected! Unfortunately he has really discovered the secret of the Enclosed Territory ...
... And if he manages to find a fragment of the Shaab Stone his influence over Magix would increase out of control!
We have to stop him! Perhaps we could warm the Fortress of Light council!
You know well that maintaining the harmony of Magix is our business! The Fortress of Light has plenty of other missions to accomplish!
My boys are the best trained! We can do it alone!

We will create different groups of Specialists, fairies and witches who must study every move Belizarius' men make ...
If an intact fragment exists of the Shaab Stone, we must find it before them and dest roy it!
Well said!
I also agree!
Me? Perhaps there is someone better who ...
You were very clever to discover what that scoundrel is up to! This means you deserve to be commander of your group!
Believe in yourself, my dear grandson! We are sure you are more than capable!
Thank you, sir! I will do my best, whatever the costs!

A few hours later, the news is already all over the school ...
... The boys are already here! Hurry up, c'mon!
ZWUIIIN
Stella, are you already prepared? It's incredible!
I was brilliant, wasn't I?! And with only two hours notice!
A mission all for us! They know we cannot stay away from each other for too long! YUUUUH!
Ouck ... Ha! Ha! Relax! This is serious, you know?
It could be dangerous ...maybe you shouldn't even be coming!
Me? You, you mean! If I wasn't around to protect you ...

C'mon guys! We have to leave straight away!
C'mon! We will find two seats beside one another!
Hi!
Hi, Helia!
I am so sorry!
Excuse me? ... Off!
?!?
Ehm ... did you hurt yourself?
No, no! I was really fine ...
Well, what I wanted to say ... I didn't mean ...

Don't you think we should get a move on commander? Those scoundrels already have too much of an advantage!
Yes, of course!
Go to your seat and fasten your belt Flora! We are just about to leave!
Is Helia the mission commander?
Yes! It is a really important task and I am very happy for him!
But we already know why he was given this honor, don't we?
What do you mean?
Well, he is Saladin's grandson, right? It is obvious he needs the practice if he will one day take over from him at the Fortress of Light!

Do you really think so? I think Helia doesn't deserve to be spoken about like that!
It's true! Be careful what you say, Riven!
Anyway, Saladin is anything but close to retiring from Redfountain ...
... And anyway, the principals have always been appointed on their merits and certainly not by family succession!
We have nothing more to do than congratulate our commander and see how good he is!
Of course! Of course! Leave it!
Ready for take off! Proceed Timmy!
As you ordered!
WWUUUUUNNN

Many miles later ...
Have you found anything?
No! The side scanning radar isn't picking up any signals!
The land is causing interference! We are flying too low!
Uhm! Let's see if the others are having more luck!
Hawk Two, calling all! Have you identified Belizarius' shuttle?
Negative! No signal!
We have to fly higher! The radar will only work at its maximum efficiency higher up!
Shall we go up to thirty thousand meters? All we need is twenty seconds of scanning and we will find them!
No!

If we go higher up they could see us and realize they are being followed!
We have to totally change our strategy! We shouldn't follow them, but try to jump ahead of them and find the Shaab Stone before them!
You are mad! They have a huge advantage already! We have to stay on them and watch their every move!
Riven might be right, Helia! We risk losing track of them alt ogether and leave them to operate undisturbed!
We cannot lose them if we haven't found them yet ...
... Furthermore, I've got an idea that is worth a try! If it doesn't work we will go back to our original strategy!

If the asteroid disintegrated and contaminated an area this big, it must have been huge ...
Therefore, it is very probable that it formed a sort of crater!
There are no craters on the map ... the impact must have occurred thousands of years ago!
From then on, natural factors must have cancelled every single trace!
Exactly! And for this reason we have to follow Belizarius' men and make them find it for us!
Even if the crater is very old, it can't have disappeared completely! Let's analyze the maps well ...
... And we should particularly look beyond what something appears! Even if it is not obvious, the truth cannot hide forever!

Let's all get to work! We will analyze a piece at a time!
Okay!
A philosopher as a commander is the last thing we need to stop those scoundrels! It's hopeless!
Why don't you leave him in peace? I am sure Helia will do his best!
I am sure of it too, darling!
But we are really taking a huge risk so I hope you are right!
Some hours later ...
We have done all we can! I think we have to give up guys!

My eyes are wrecked from looking at that screen! Let's take a break!
I don't know what is right, Helia! But I know you are doing your best!
Perhaps I have got everything wrong ... do you think so too?
Certain things don't depend on us!
But it's up to us to know when the time is right for change!
If Riven is right it is fair that he ...
Look! Maybe I found something!
You can only see it on a very large scale! Look at these rock formations ...

They are arranged in an almost perfect circle ... and the crack is right at the center!
Let's look at it three dimensionally, exaggerating the vertical coordinates and let's see what happens
A crater on impact!
It's huge!
The trace is not very clear because it is ancient and worn by time!
Or because they are any old formations without meaning!
It is worth having a look anyway! Prepare the new route!
And keep you eyes wide open! If Belizarius' men have done the same as us, we could meet them soon!
VVUUM

In fact, a few hours later ...
Look! Another shuttle!
That's not one of ours! They are Belizarius' men for sure!
Let's land, quickly! They mustn't see us!
VROAM
My God, Timmy! Are you not exaggerating a bit?
Relax, Tecna! Flying this is better than a videogame!
This place is perfect!

Let's have a look at the valley! Make sure nobody can see you!
There they are, down there!
There's a lot of them! A real camp.
x 41 y 140-2
mm25,360
They must be there for days! Perhaps they had already carried out research in this area ...

THEY HAVE FOUND THE SHAAB STONE!?!
That's the last thing we need, damn!
Let's head back! They mustn't know we are here!
They've found a fragment? The legend is true then?
Calm down Stella!
And what can we do?
Well, they saved us energy, at least! ... Now it is up to us to end it!
What do you mean?
We lost too much time! I said we had to get a move on!
We did everything as quickly as possible, Riven! Don't start!

They will be busy celebrating! Let's spring a surprise attack on them and take the stone!
There's not enough of us to do it! We have to call for back up!
YOU WANT TO WAIT? This really is ridiculous!
We are not bandits! What do you want to do ...kill them in their sleep?
As long as we are here, no law can stop us! The stone will belong to whoever takes it ... and it will be ours if we act immediately!
I wouldn't say that! We have paralyzing gas with us and ...
Those men are professionals and it would be stupid of us to underestimate them! Furthermore, we have to act within the law!
We will keep a close eye on them and when our back up arrives there will be enough of us to get the stone off them!

Then the authorities in Magix will resolve the issue! We certainly cannot act on their behalf!
Contact the other groups via radio! Tell them to arrive as soon as possible!
Okay!
We will prepare ourselves! It will be dark soon!
Foolish coward! The mission will fail, I am sure of it!
Why are you doing this? You're just making everything more difficult!
This mission is important to me! Do you realize what will happen if Belizarius gets his hands on the stone?
We cannot do magic anymore ... our powers will be useless! Magix will never be the same again!
Harmony in Magix can't only depend on a stupid stone! I think it really depends on us!

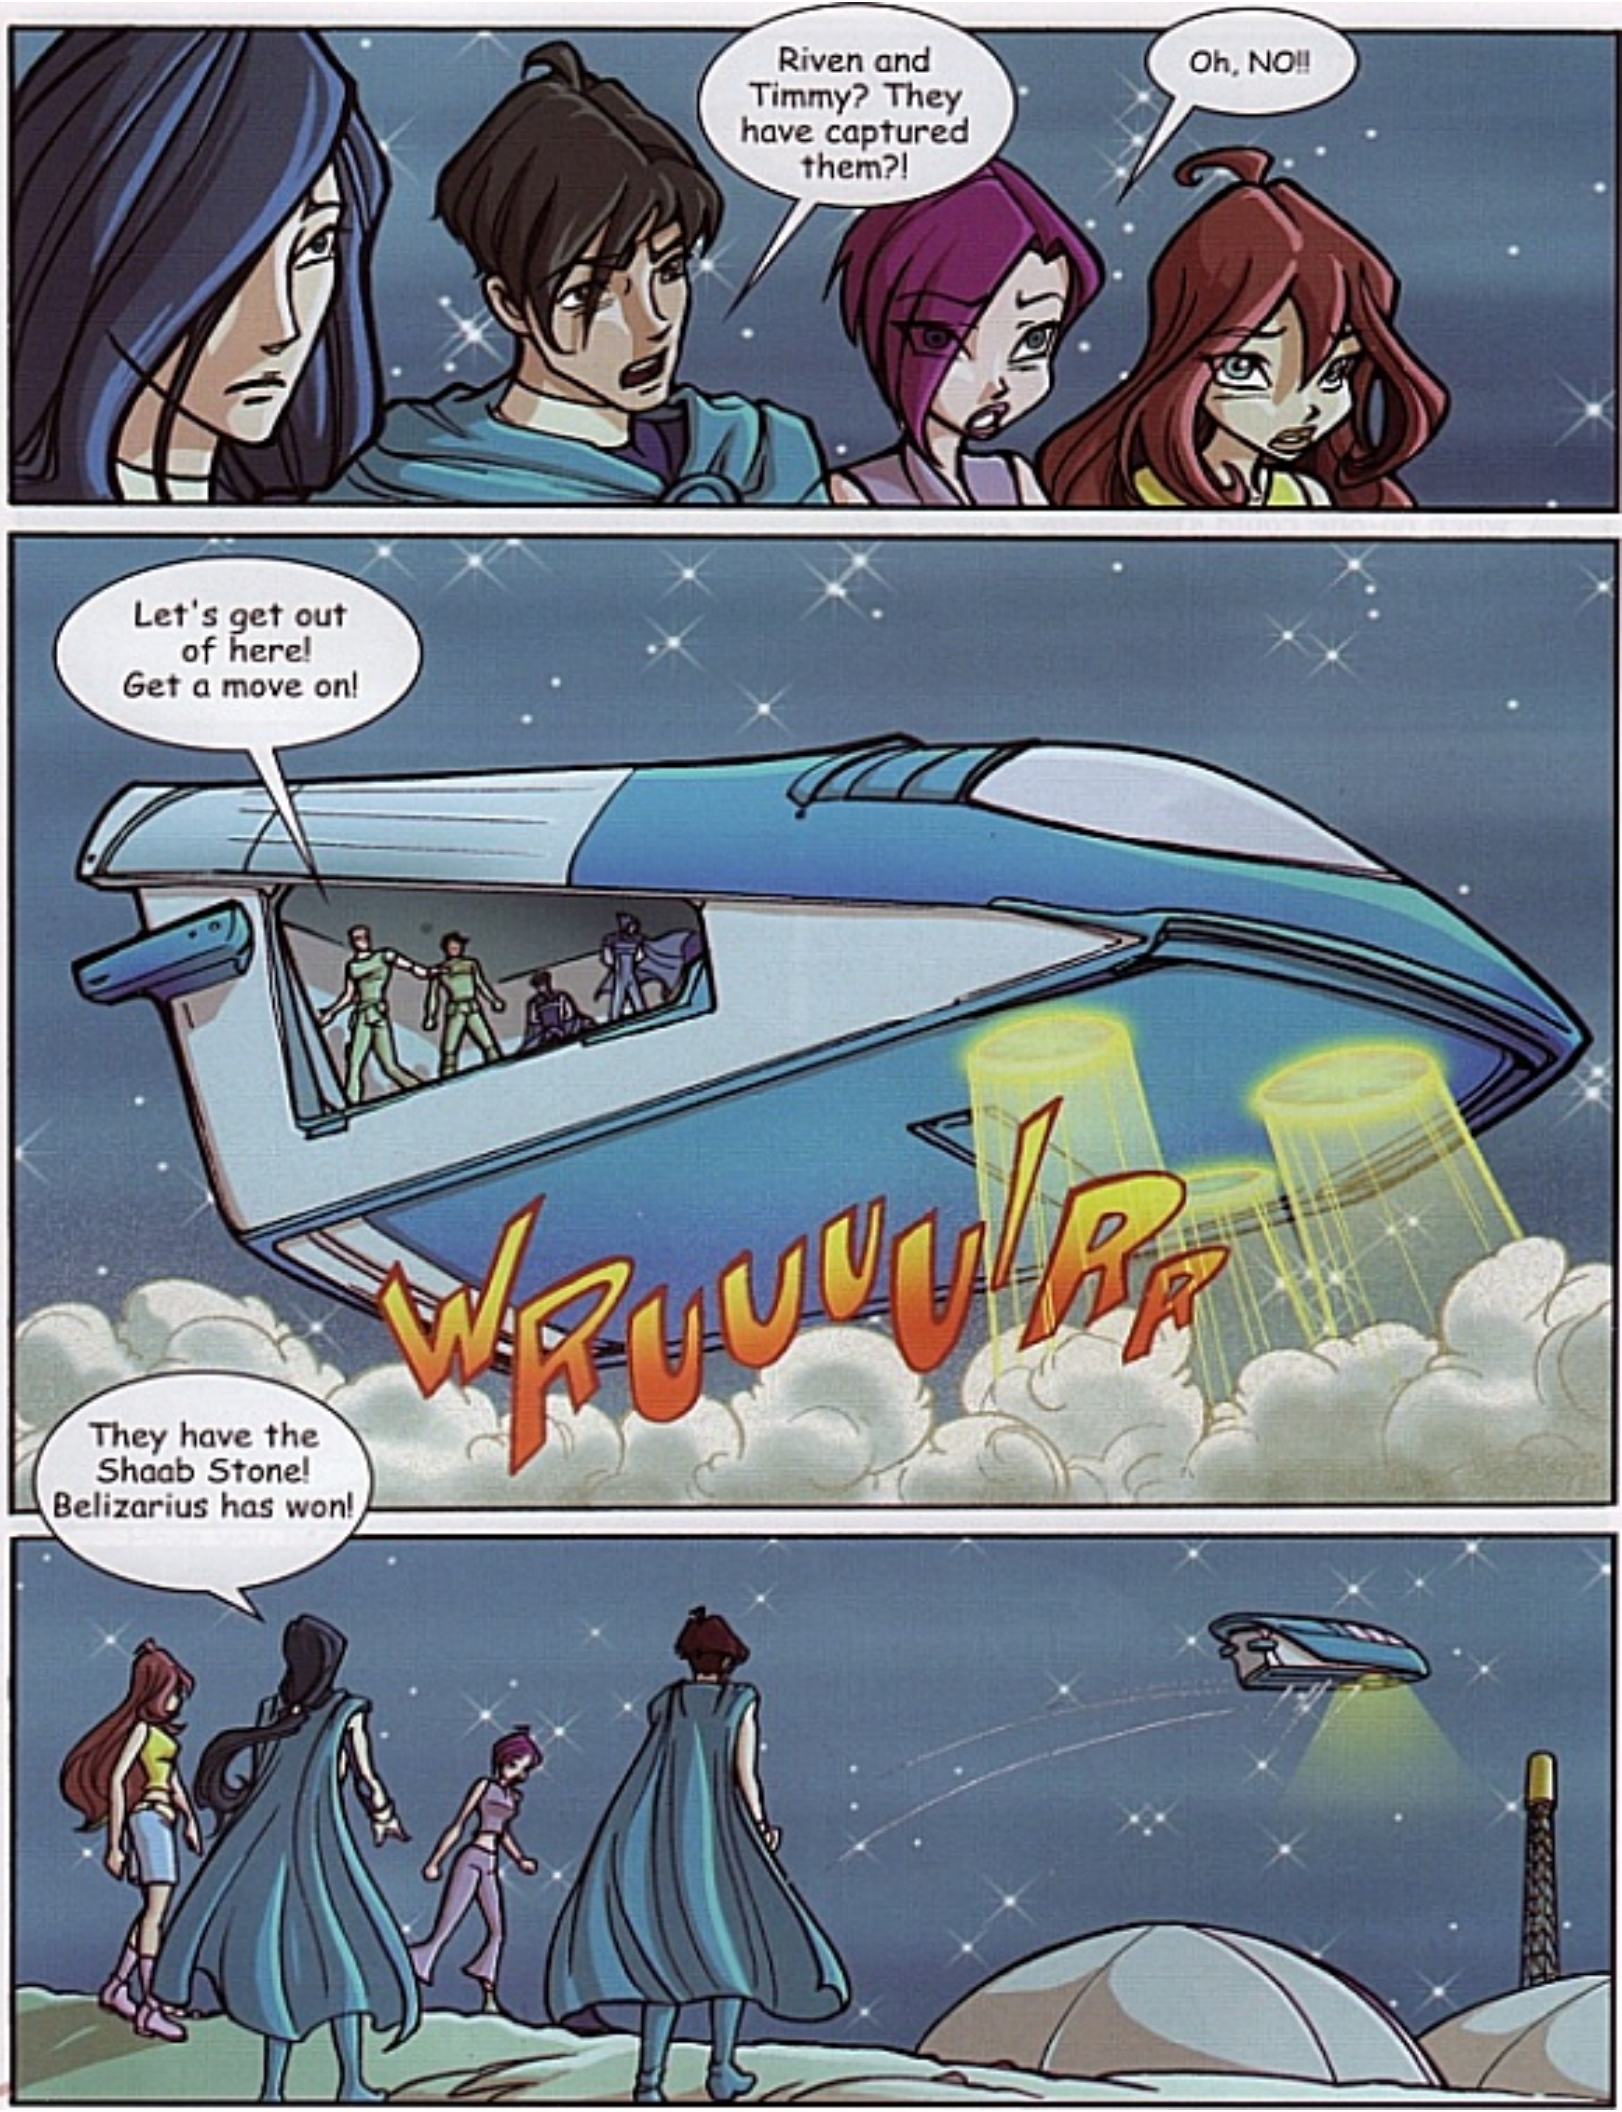
Just as it depends on you to win the respect of others ... something you will never have if you don't start showing respect for others!
That night ...
Our back up will arrive in less than two hours!
We need to know how many people are in the tents! Can you help us?
We tried to become invisible but it's impossible! The influence of the stone is too strong!
Good! We will attack them only if they try to leave! Let's break up and surround the camp!

We are ready to sabotage the shuttles so they can't escape! You watch our backs!
You can count on us!
The guard cannot see us from here!
I'll go first! You f ...
Ssst!
God, this is heavy. This damn stone!
Ha! Ha! Thank fully we've only found the one!
But this is nothing compared to the money we'll get when we hand the stone over to Belizarius
Lothar is convinced to return to base, finally!
Did you hear that? They have the stone ... and just a few feet from us! We have to take advantage of it!
Are you mad? Helia said to wait!

We don't need much! The back up is arriving!
Helia è un vigliacco! Se la prendiamo ora, la pietra sarà nostra e noi diventeremo degli eroi!
I'll sort this! You cover my back!
Riven, NO! Oh no ... wait!
Put it down, scoundrel!
OUCK!
???
THUD
Damn! Who are you?
C'mon ... I have to set the paralyzing ray!
WRAAZZ
BLOOP
AGGHh!

Let's take the chest and get out of here!
Yes! Yes! ...
STOP!
Damn! There are other armed guards!
CLANG
THUD
Did you really think you could fool us, boy?
Give up or you'll regret it!
Good heavens! Look Helia!

BROAOARRR
The other Specialist shuttles! Our back up has arrived!
YOU ARE SURRO UNDED! LEAVE DOWN YOUR ARMS AND ACCEPT TO NEGOTIATE!
WE AREN'T GOING TO NEGOTIATE! LET US LEAVE OF YOUR FRIENDS DIE!



Riven and Timmy? They have captured them?!
Oh, NO!!
Let's get out of here! Get a move on!
WRUUUUURR
They have the Shaab Stone! Belizarius has won!

The next day ...
... Riven and Timmy are well! Belizarius' men freed them on the outskirts of Magix, when no-one could stop them anymore!
At least this part of the story hasn't ended in tragedy!
It was Riven's fault, Helia! You have to tell Saladin!
As commander I had to foresee what was going to happen!
Accusing Timmy and Riven won't remove my responsibility, so it is better just to say nothing ... and I beg you to do the same!

Student Helia, enter! The inquest commission is ready to hear what you have to say!
... Have you heard? Helia has received a formal demerit. They considered him responsible for everything!
It's not fair! ... And Riven wasn't even mentioned!

I am sorry Flora, but Riven is really out of control! I tried reasoning with him, but ...
And Timmy?
When I see him again I'll give him a piece of my mind! ...
Ok, girls! It went wrong! There's no point in making accusat ions!
What will become of Magix now!
No more magic! I still can't believe it!
Ha! Ha! Ha! The best is yet to come, dear Servidio! Now we can really start to enjoy ourselves!
THE END?
